Core Skills

■ **Power BI** DAX · KPI Dashboards · Drill-through	■■ **SQL** Complex queries · Aggregations · SQL Server
■ **Excel Advanced** Power Query · Pivot Tables · Automation	■ **Python** Pandas · Seaborn · Matplotlib · EDA
■ **Data Cleaning** Transformation pipelines · Outlier handling	■ **Dashboards** Business storytelling · Executive reporting

Selected Projects

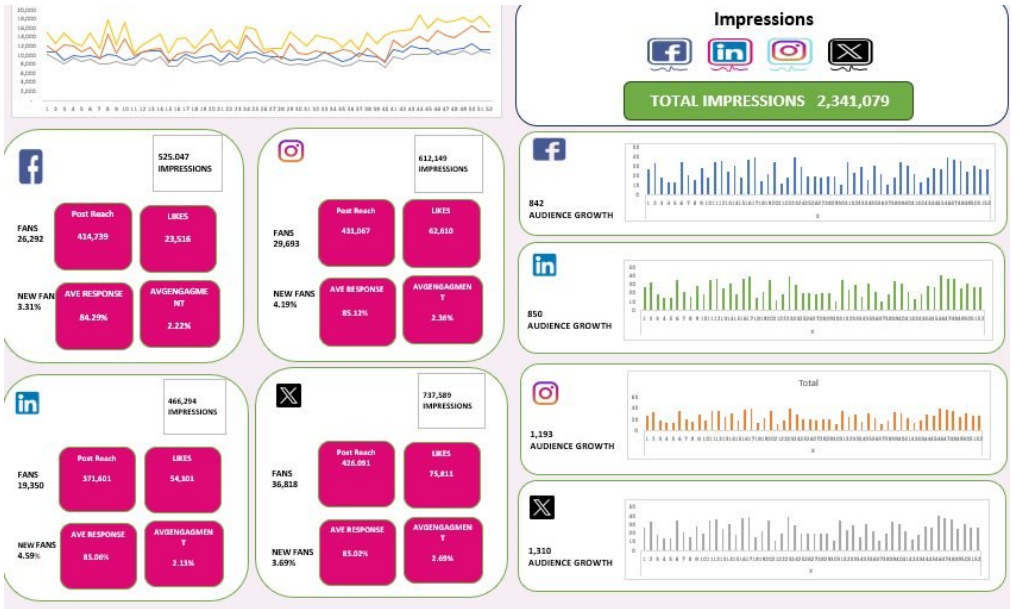
#01 Social Media Performance Dashboard

2.34M Total Impressions Tracked

Multi-platform analytics dashboard tracking Facebook, LinkedIn, Instagram, and X (Twitter) — covering impressions, reach, likes, engagement rates, and audience growth.

→ **Result:** Instagram led engagement at 2.38%; X dominated with 737K impressions out of 2.34M total.

Tools: Power BI · Excel



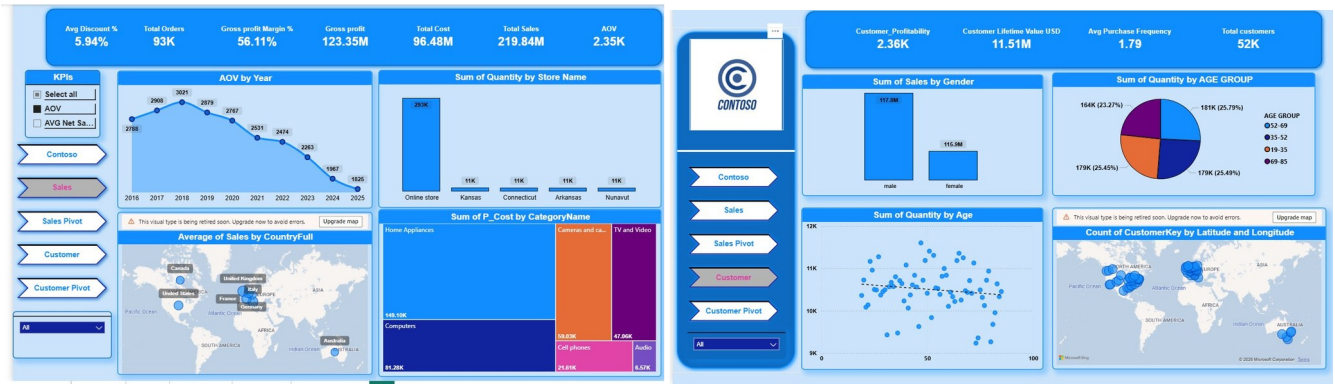
#02 Contoso Retail — Sales Analysis

$219M Total Sales · 56% Profit Margin

Full BI pipeline analyzing 100K+ customer records across 6 relational tables for a multinational retail company. Revealed $219M+ in total sales and identified the root cause of revenue decline.

→ **Result:** Heavy discounting — not a drop in orders — was driving the revenue loss.

Tools: SQL Server · Python · Power BI



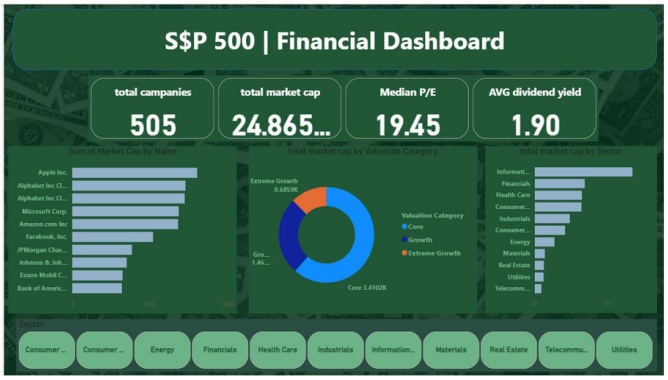
#03 S&P; 500 Financial Dashboard

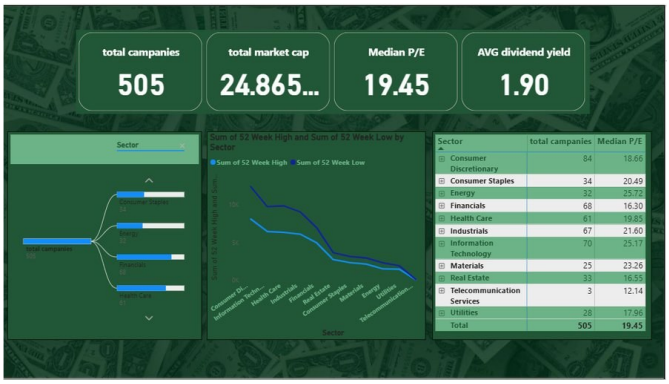
505 Companies · 11 Sectors · Median P/E 19.45

Interactive financial dashboard covering 505 companies across 11 sectors. Tracked total market cap, P/E ratio, dividend yield, 52-week highs/lows, and valuation categories (Core, Growth, Extreme Growth).

→ **Result:** Apple led in market cap; full sector breakdown with drill-through enabled.

Tools: Power BI · DAX





Education

2026	**NTI Data Analysis Program** National Telecommunication Institute (NTI), Egypt Data Analysis Skills for the Freelance Professional
2024	**B.Sc. Computer Science & Data Science** Alexandria University — Faculty of Computers and Data Science
